Equality monitoring of employee protected characteristics

2022-23 data tables

Explanatory Notes

Publication principles

We present our data in a way that aims to balance transparency and our duty to protect the anonymity of our employees as per the General Data Protection Regulations (GDPR). The data we present:

- Reflects the proportion of our workforce that has completed their equality data information, including 'prefer not to say' (but with non-complete records excluded)
- Uses percentage bandings only, rather than the count of people in each group.

Recruitment Stage

There are two recruitment tables for each protected characteristic.

(1) shows the total applicant distribution by the following vacancy types:
- **Internal only:** vacancies that were open to current employees only
- **External and internal:** vacancies open to both employees and the public

(2) the progression of applicants by equality group through key recruitment stages:

This includes all applications received across all our vacancies in the reporting period. Using the example below, each column heading represents the last stage that applicants reached. For example, 15-20% of total applicants reached the interview stage but were not appointed, whilst 15-20% were interviewed and appointed. The remaining 60-65% did not reach the interview stage.

Sex	Applied/withdrew	Interviewed	Appointed	Total
Female	65-70%	15-20%	15-20%	**100%**
Male	60-65%	15-20%	15-20%	**100%**
Prefer not to say	100%	<5%	<5%	**100%**
Total	**60-65%**	**15-20%**	**15-20%**	**100%**

Trans status (gender reassignment)

We do gather data on transgender status however our employee population is too small to publicly report on this protected characteristic.

National Identity

Monitoring questions and answer options are the same as those used in the Scottish Census 2011[1]. We use the following aggregated categories:

- **Scottish:** Scottish
- **Other British:** English, Welsh, Northern Irish, British
- **Other national identity:** Other national identity.

---

[1] We are aware that there are updated Scotland census questions for 2022 however we have not yet updated our questions and answer options. This applies to all references to using the Scotland 2011 Census questions.

Ethnic Origin

Monitoring questions and answer options are the same as those used in the Scottish Census 2011. We have updated our aggregated categories for our 2021-22 reporting based on guidance published by the Scottish Government[2].

- **White Scottish, British, Irish**: aggregates white Scottish, British or Irish
- **White minority ethnic**: aggregates all other white ethnic groups
- **Non-white ethnic minority:** aggregates the high level Scottish census groupings mixed/multiple ethnic groups, Asian, African, Caribbean or Black and other ethnic groups.

We acknowledge that aggregating data in this way can disguise differences between ethnic groups. Our numbers are too low to disaggregate data further.

Religion or belief

Monitoring questions and answer options are the same as those used in the Scottish Census 2011. We use the following aggregated categories:

- **No religion or belief:** no religion
- **Christian:** aggregates Church of Scotland, Roman Catholic and any other Christian
- **Other religions or belief:** aggregates Buddhist, Hindu, Muslim, Sikh, Jewish, and any other religion or belief.

Disability

Monitoring questions and answer options are the same as those used in the Scottish Census 2011. Our reporting therefore includes disability and long term conditions.

Grades

Grade 1 is our lowest paid grade. Grade 10 is our highest paid grade.

Definition of full time

Full time employees are those contracted to work 37 hours per week or 36 hours per week for employees on legacy contracts.

Training

We provide disaggregated data by protected characteristic for the following types of training:

- **External qualifications:** courses run by external providers that result in a certificate or recognised qualification
- **Internal non-mandated training:** training our employees complete excluding mandatory training, such as corporate induction.

Suppression of Values

All data tables use **percentages only**, not counts. The following principles apply:

➢ Percentages are reported in 5% bands. The Equality and Human Rights Commission guidance recommends to not report accurate percentages if the number of people is below 10.
➢ Where any figures are on the boundary between two bands, these have been allocated to the higher band; e.g. 65% would be within 65-70%, not 60-65%
➢ Upper and lower points are reported as <5% and >95%.
➢ Cross tabs by grade, working pattern and training are included for disability, age, sex and race only.
